2019
MATERNAL-FETAL IMAGING
Advances in OB-GYN Ultrasound with Guidelines and Practical Tips

JANUARY 18-20, 2019
THE WESTIN RIVERWALK
SAN ANTONIO, TX

WorldClassCME.com
(888) 207-9105

PROGRAM DIRECTOR:
Dolores H. Pretorius, MD, FACP, FAIUM, FSRU

FACULTY: Oksana H. Baltarowich, MD; Mishella I. Perez, BS, RDMS, RDCS; Heather Sun, MD, FASE, FACC; Steven L. Warsof, MD; Milena M. Weinstein, MD, FACOG, FPMRS; Thomas C. Winter III, MD

19 AMA PRA Category 1 Credits™
19 Cognate Credits

© 2018 World Class CME. ALL RIGHTS RESERVED
FACULTY

Dolores H. Pretorius, MD, FACR, FAIUM, FSRU
Director of Imaging, UC San Diego
Maternal-Fetal Care and Genetics
Professor of Radiology
University of California, San Diego, CA

PROGRAM DIRECTOR

Oksana H. Baltarowich, MD
Professor of Radiology
Sidney Kimmel Medical College
Thomas Jefferson University
Philadelphia, Pennsylvania

Mishella I. Perez, BS, RDMS, RDCS
Maternal-Fetal Care & Genetics
UC San Diego Health
San Diego, California

Heather Sun, MD, FASE, FACC
Director, Fetal Cardiology
Assistant Clinical Professor, Pediatrics
Rady Children’s Hospital
UC San Diego School of Medicine
San Diego, California

Steven L. Warsof, MD
Professor of Obstetrics and Gynecology
Director of Genetics and Prenatal Diagnosis
Eastern Virginia Medical School
Norfolk, Virginia

Milena M. Weinstein, MD, FACOG, FPMRS
Co-Chair, Massachusetts General Hospital Pelvic Floor Disorders Center
Fellowship Director, Female Pelvic Medicine and Reconstructive Surgery
Assistant Professor of Gynecology and Reproductive Biology, Harvard Medical School
Boston, Massachusetts

Thomas C. Winter III, MD
Professor, Radiology and Imaging Sciences
Adjunct Professor, Obstetrics/Gynecology
University of Utah School of Medicine
Salt Lake City, Utah

COURSE OBJECTIVES AND TARGET AUDIENCE

Upon completion of this conference, the participant will be able to:

• Demonstrate how to perform an optimal fetal cardiac and anatomical exam by watching live scanning by a sonographer

• Differentiate abnormally developing early pregnancies from normal based on sonographic correlation of anatomic findings

• Perform a basic obstetrical ultrasound examination, fulfilling the requirements set forth by the ACOG, ACR, and AIUM for a first trimester scan

• Identify the ultrasound appearance of common and interesting fetal genitourinary anomalies

• Incorporate current practice guidelines in cardiac evaluation

• Look for clues in evaluating ventricles to recognize normal and abnormal fetal brain diseases

• Describe definition of adherent placenta spectrum, risk factors, image acquisition and image interpretation

• Optimize resolution and evaluation of the fetal heart during the anatomy scan

• Update on state-of-the-art practices in prenatal genetic screening for aneuploidies

• Recognize the classic ultrasound findings of ectopic pregnancy as well as ectopic pregnancies in unusual location

• Understand the legal ramifications of performing obstetrical ultrasound and implement safeguards to mitigate your risk

• Discover the advantages of ultrasound for evaluating the female pelvis for non-pregnant gynecological emergencies

• Discuss common sonographic findings of female pelvic pain when evaluating pelvic problems including ovarian torsion and common gastrointestinal and vascular causes of pelvic pain

• Learn practical applications of ultrasound in evaluating pelvic floor

Target Audience – Physicians, nurse practitioners, physician assistants, nurse midwives, nurses, sonographers and radiologic technologists who work in a clinical practice setting using maternal-fetal ultrasound for diagnosis and screening

“Our faculty will be doing live scanning to show tips on obtaining cardiac and outflow tracts (with color Doppler) as well as tips on scanning brain anatomy, the lower uterine segment and getting optimal doppler images.

We will cover first trimester anomalies as well as the most common anomalies diagnosed today with ultrasound in the second and third trimesters. A particular focus on prenatal diagnosis of congenital heart disease for screeners will be given by cardiac specialists. You’ll also learn the basics in assessing pregnancies at risk for morbidity adherent placenta (accreta spectrum) since it is now 1:200 pregnancies. Gynecological ultrasound will include ultrasound of endometrium, pelvic pain and pelvic floor.”

– Dolores Pretorius
REGISTRATION

Maternal-Fetal Imaging 2019
January 18-20, 2019 | The Westin Riverwalk | San Antonio, TX
You may also register online at WorldClassCME.com or by phone at (888) 207-9105, M-F 8:30 am - 5 pm EST

Name (Please Print)

Degree

Specialty State Medical License # ACOG ID#

ARRT# ARDMS# Military ID#

Facility/Organization

Address

City State Zip

Phone E-mail (for confirmation and CME certificate)

Registration Fees

Physician ........................................... $1,045
Resident/Retired/Military/VA Physician* ........................................... $945
Advanced Practitioner (NP and PA), Certified Nurse Midwife... $895
Sonographer ................................................................. $795
Single-Day Tuition ............ Physician/NP/PA $695; Sonographer $595

*Written certification of status required.

Payment Method (please make check payable to World Class CME)

Check one:

☐ Discover  ☐ Visa  ☐ Master Card  ☐ AMEX

Group Registration Discount

Sign up with others and get a group discount! Call our office to receive $50 off each registrant’s fee when you register two or more at the same time.

Refunds

A fee of $75 is charged for cancellations received prior to the course date. Refunds cannot be issued after January 9, 2019.

Please mail this form to: World Class CME, 6201 Fairview Rd Suite 200, Charlotte, NC 28210

Accreditation – World Class CME is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. World Class CME designates this live activity for a maximum of 19 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The American Academy of Physician Assistants has approved this course for Category I CME for PAs.

Nurse Practitioners and RNs – The American Nurses Credentialing Center and the American Academy of Nurse Practitioners Certification Program accept continuing education credits sponsored by organizations, agencies or educational institutions accredited or approved by the Accreditation Council for Continuing Medical Education (ACCMC). Category A CE credit is pending approval by the American Society of Radiologic Technologists. The American Registry of Diagnostic Medical Sonographers (ARDMS) accepts American Society of Radiologic Technologists (ASRT) Category A credits as fulfilling their requirements for continuing education (CE) credits. This product (service) is not affiliated with or endorsed by Interleos, Inc. ARDMS® is a Council of Interleos, Inc.

Certified Nurse Midwives – The American Midwifery Certification Board Certificate Maintenance Program accepts AMA PRA Category 1 Credits™ to satisfy the contact hours requirement.

Disclosure – World Class CME relies on its CME faculty to provide program content that is evidence based and free of commercial bias. Therefore, in accordance with ACCME standards, any faculty, program director, reviewer, and/or provider industry relationships will be disclosed and resolved. Speakers are required to openly disclose any limitations of data and/or any discussion of any off-label, experimental or investigational uses of drugs or devices in their presentations.

INFORMATION

Course Materials and CME Certificate
You will receive a digital syllabus containing lecture abstracts and slides accompanied by a notebook with lecture objectives and notes pages. Your course evaluation and CME certificate will be sent to the email you provided when registering.

Lecture Slides Download
Please look for an email a few days before the course dates for a link where you can download the lecture slides to your tablet or computer or print a syllabus if you wish to have one on hand at the course.

Meals
An expanded continental breakfast, as well as morning refreshments will be provided daily in the exhibit hall.

Exhibits
Diagnostic ultrasound equipment, as well as national leaders in medical publishing, will be on site.

Explore San Antonio
The Westin Riverwalk’s fabulous central locale along the cypress-lined Paseo del Rio is ideal for exploring San Antonio’s history, great shopping, fine dining and exciting nightlife. A river taxi is a great way to see the bright evening lights of the city or visit the historic sites during the day. Street cars also make for an easy and fun way to get around.

The Pearl District’s cultural events, gardens, restaurants and farmer’s market are the latest addition to the award-winning culinary scene of San Antonio. A 1.3-mile extension of the Riverwalk features art exibits, parks, breweries and boutiques.

After a night on the town, take a walk or a jog along the Riverwalk, which extends from the heart of San Antonio in two directions – the Pearl District on one end and the historic King William District on the other. Join the crowd in the evenings for a laser light show at Main Plaza, which tells the story of San Antonio from its beginning to today. Check mainplaza.org for the schedule.

At the hotel, guests can energize in the fitness studio or enjoy a soothing spa experience. Known for their outstanding service, the Westin staff will make your San Antonio escape a vacation to remember.

Hotel Accommodations
A discounted room rate of $209 for city view and $229 for river view room is available for a limited number of rooms when reservations are made before 5 pm EST Jan. 9, 2019. Call early as these rooms may sell out prior to that date. For reservations, call 1-888-627-8396 and identify yourself as an attendee of the World Class CME course.
